SPERSON

The new outstanding seed treatment by dusting for the prevention of seed born diseases and fungi causing low germination of seed. It is non-poisonous and does not harm the seed under any conditions of soil, moisture or temperature, according to results to date. It can be used for all kinds of seed. You will be pleased and surprised with the results.

HAPPY NEW YEAR!

It is with pleasure and sincere gratitude that we thank each of you many loyal and fine friends for the business you gave us the past year. Each one of you contributed to making 1947 such a pleasant year. We hope that we shared some in helping make it a success for you.

We wish for each and every one of you in the year 1948 a year filled with more successful business than you have ever had, from customers as fine and good as all of those we have; happiness and health in abundance for you and your loved ones, and friends who make life a pleasure and supply so much happiness along this busy way.

We want to give you every service possible during 1948 and will endeavor to supply your every need in the seed line.

We will have ready for you soon, a new edition of our Catalogue, Field, Pasture Grass and Soil Improvement Crops, that is written especially for you and your customers. It will be mailed to you as soon as it is off the press.

Looking forward to a future of continued friendship with you, we are

Yours very truly,

Associated Seeds, Inc.
